

Mohammed Rami Benhamida

bloopdex@gmail.com | +213 556 55 04 92

Experienced full stack developer proficient in front-end and back-end technologies, delivering scalable web applications with expertise in JavaScript, Python, React, and Django.

PROFESSIONAL EXPERIENCE

Fiverr

Full Stack Developer

06/22 – Present

- As a full stack freelancer, I specialized in developing dynamic applications, leveraging my expertise in front-end and back-end technologies to deliver customized solutions with functionality and user-friendly interfaces.

EDUCATION

Université Des Sciences Et De La Technologie Houari-Boumédiène

BSc. Computer Science

12/20 – 06/23

PROJECTS

Personal Portfolio

07/23 – 07/23

- My personal portfolio project is a sleek and responsive website that highlights my skills and achievements as a full stack developer, providing a visually appealing showcase of my work.

Brevi Link – Url Shortner

06/23 – 06/23

- Brevi Link is my innovative URL shortener project, utilizing JavaScript, React.js, Node.js, and database management to create concise and shareable links, enhancing the efficiency of URL sharing and tracking.

12ft Ladder Application

06/23 – 06/23

- The 12ft project allows users to surpass paywalls, accessing premium blogs and articles on the internet for free, expanding their knowledge and removing content restrictions.

Sweet Bites Management Platform

06/23 – 06/23

- Sweet Bites is a project that simplifies sweet store management by providing an integrated system for inventory, orders, and customer tracking, optimizing operations and improving overall efficiency.
